Sleeve (cm)	76	77	78	79	80	81	82

**Women:**

**Chest:** Measure loosely around the fullest part of the bust. Half chest measurement is half of this figure.

**Full Length:** Measure distance from the top neck area of the tee down to the bottom.

**Men:**

**Chest:** Measure loosely around the broadest part of the chest. Half chest measurement is half of this figure.

**Full Length:** Measure distance from the top neck area of the tee down to the bottom.

**How to ensure a good fit?**

Firstly, consider the type of fit that your chosen jacket is, as this is how the jacket is typically worn. Some jackets are intended to fit loosely and have a draping quality. Others should be worn closer to the body for warmth or style.

A jacket should always allow ease of movement and be comfortable. As a general rule, add 5cm to your body measurements to determine the jacket size.

**How do I use the sizing chart now that I have my measurements?**

If your measurements are:  
 Chest: 125cm  
 Shoulder: 19cm  
 Sleeve: 64cm

As an example, your ideal size would be a "Medium Winter Jacket"
